HULCO Terrax-2 3500 394 x 180

HULCO are the Commercial Trailer Division of the Anssems Group.

The strong and extreme low loading floor, robust tailgate ramp, shovel support and multiple tie points make the Terrax a professionals choice. The HULCO Terrax is an ideal choice for transporting aerial work platforms, scissor lifts, mini diggers and rollers.

Key Features –

- Floor support - The Terrax tandem has a strong floor support due to the many cross bars. The aluminium loading floor can handle maximum loads and still perform excellent.
- Lashing points - The Terrax has a large amount of binding options, all vehicles are easy to secure.
- Ideal ramp angle - The low tailgate ramp angle is a time saver. Machines drive up without any problems. Low loading floor makes it happen.
- Shovel-support - All Terrax plant trailers are equipped with a fixed shovel-support on the drawbar.
- Jockey wheel - The automatic jockey wheel is convenient to use and of premium quality.
